Bellar Stool

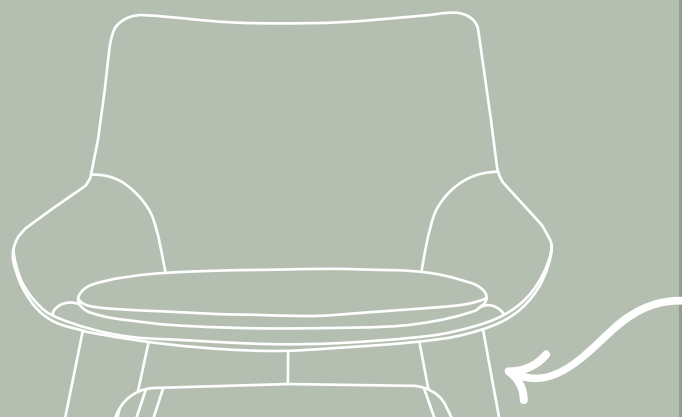

The modern workplace has evolved, with focuses on inspiring collaboration, flexible working and encouraging connectivity. The Bellar Range combines comfort, style and ergonomics. The perfect fit for every environment.

Bellar has been designed with flexibility in mind. The differentiated design allows it to fit into many environments and moments. From a self adjusting breathable mesh backed task chair to soft seating to suit every occasion.

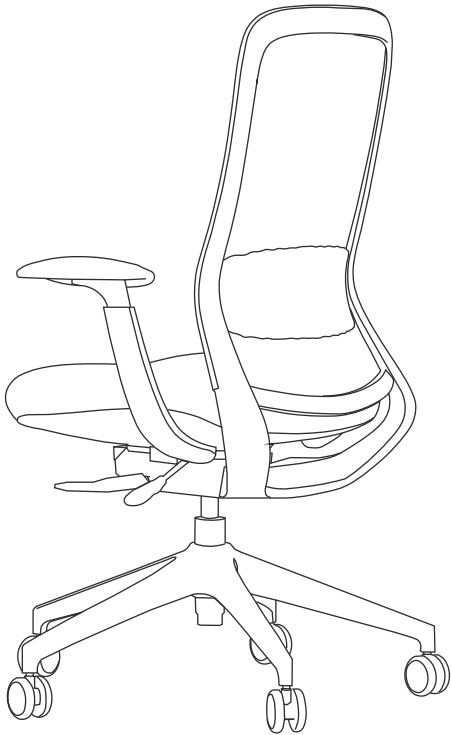

Gregory's Bellar Range's innovative design showcases an extensive range of frames that provide comfort and suit every environment. Options include integrated armrests and a variety of bases.

The unique design of the Bellar Task boasts a self adjusting compact synchro mechanism that is highly recommended by one of Australia's leading ergonomists and University lecturers.

Inspire collaboration with Bellar, the perfect fit for every environment.

The Bellar Range fuses modern seating technology with inspiration drawn from nature. The inspiration behind the range is drawn from the graceful posture of the swan. The unique curves continued throughout the Bellar Range creates a comfortable ergonomic experience for every user. The Bellar Range has been designed with the evolving office in mind, from flexible task and executive chair options through to breakout chairs and meeting chairs with a variety of style options.
